Public Notice

Notice of Availability Combined Final Environmental Impact Statement/Record of Decision

This notice advises the public that a Combined Final Environmental Impact Statement/Record of Decision (FEIS/ROD) for the I-10 Mobile River Bridge and Bayway Project was signed by the Federal Highway Administration (FHWA) on August 15, 2019. The Combined FEIS/ROD explains the basis for the Selected Alternative and defines the measures that will be incorporated into the project to mitigate potential impacts. It also addresses comments received from the public and agencies during the public and agency review period and signifies the conclusion of the environmental review process. The Combined FEIS/ROD incorporates information from the Draft Environmental Impact Statement (DEIS) and the Supplemental DEIS as the basis for the decision.

With a Selected Alternative and issuance of the Combined FEIS/ROD, ALDOT can move forward with the next phase of project delivery by issuing a Request for Proposals from the three teams pursuing the project. ALDOT will continue to work with elected officials to secure additional funding sources to deliver the project and buy down the toll.

In accordance with Section 102(2)(c) of the National Environmental Policy Act of 1969 (P.L. 91-190) and Federal Highway Administration guidelines, the Combined FEIS/ROD is made available to the public. It can be downloaded by visiting the project website at: www.mobileriverbridge.com.

Hard copies of the Combined FEIS/ROD will be made available for public review at the following locations:

- Alabama Department of Transportation, Southwest Region Office, 1701 I-65 West Service Road North, Mobile, Alabama 36618
- Alabama Department of Transportation, Design Bureau Office, 1409 Coliseum Boulevard, Montgomery, Alabama 36110.

Requests for a DVD electronic copy or a hard copy of the Combined FEIS/ROD can be made by sending an e-mail to ALDOT at mrbenvironmental@dot.state.al.us.
