Committee and Commitments

Environmental History

- National Environmental Policy Act (NEPA) Process
 - Final Environmental Impact Statement/Record of Decision
 - Selected Alternative Approved: August 2019
 - Environmental Commitments

Outreach Activities

	Activity
2016	Participated in three Africatown CDC Meetings
October 27, 2016	Bicycle/Pedestrian Public Workshop
June 19, 2018	Africatown Community Workshop
December 7, 2018	Africatown CDC/Business Community Partners (BCP) Holiday Social
December 19, 2018	Added Africatown representatives as Section 106 Consulting Parties
January 2019	Surveys provided to residents via community leaders and churches
February 2019	Tabling Events within Africatown (attended basketball practices and games at Hope Community Center)
March 19, 2019	Neighborhood Meeting at Union Missionary Baptist Church (arranged by Councilman Manzie)
May 7 & 9, 2019	Public Hearings

Role of Committee

- Encourage dialogue between the community and ALDOT
- Provide a forum for discussion as ALDOT begins to implement commitments/mitigation measures
- Provide opportunities for various views and perspectives to be voiced and considered
- Promote compatibility with Africatown's community development plans
- Help distribute information to community and engage with residents, businesses, and interested parties

Committee Members

Africatown C.H.E.S.S.

Africatown Community Development Corporation

Africatown Heritage Preservation Foundation

Africatown Redevelopment Corporation Board

Center for Fair Housing, Inc.

City of Mobile

City of Prichard

First Hopewell Missionary Baptist Church

Hope Community Center/City of Mobile Parks and Recreation

Mobile County Commission

Mobile County Training School

Mobile Environmental Justice Action Coalition

Our Mother of Mercy Catholic Church

The Clotilda Descendants Association

Union Missionary Baptist Church

Yorktown Missionary Baptist Church

Environmental Commitments

1. Meet with Africatown/Plateau community as the project develops.
2. Work with the Africatown/Plateau community to implement mitigation measures through community outreach, public meetings, and a Steering Committee. This will provide continued opportunities for involvement of Africatown/Plateau representatives to promote compatibility with the community's plans for development and growth.
3. **Conduct a speed study** to determine if changing the posted speed limits will have a beneficial effect.
4. Based on results of speed study, work with Africatown/Plateau to **evaluate and implement traffic calming measures** that will be effective in reducing speeds along Bay Bridge Road without substantially increasing anticipated queue lengths.

Environmental Commitments (continued)

5. **Provide traffic signals** at Union Missionary Baptist Church (Bay Bridge Road Cutoff) and Magazine Street/Tin Top Road.
 - Signals will be timed to improve traffic flow along the corridor to minimize impacts to the community.
 - Signals will also be responsive to traffic to facilitate ingress and egress for residents of the Africatown/Plateau community.
 - ALDOT will work with the Africatown/Plateau Steering Committee to make sure the signals are effective and properly operating and that any concerns or issues associated with the timing and/or sensors are addressed in a timely manner.
6. **Adjust signal timing along the non-tolled route**, including Africatown Boulevard, to better accommodate local traffic movements.

Environmental Commitments (continued)

7. **Construct the Africatown Bridge Shared Used Path** from the I-165 ramp at Africatown Boulevard to US-90 on the east side of Mobile River.
 - Work with municipalities to provide future extensions from downtown Mobile to the USS ALABAMA Battleship Memorial Park.
 - Provide crosswalks at all signalized intersections along Africatown Boulevard as part of the Africatown Bridge Shared Use Path. Crosswalks will include appropriate striping on the asphalt, push-button activated signal heads, and pedestrian signage.
 - Install landscaping and historical/interpretive signage along the Africatown Shared Use Path.

Environmental Commitments (continued)

8. Install streetscaping along Paper Mill Road.
9. Develop an **access management plan** to help facilitate access to and from destinations along the US-90/US-98 Causeway. Strategies may include installing traffic signals, medians with U-turns, mid-block signals, and other appropriate techniques.
10. Conduct a **traffic study** that documents existing and future **hazardous cargo** flow along Africatown Boulevard to compare actual numbers before and after construction of the project.
11. Work with the Africatown/Plateau Steering Committee to **meet with ADEM** to facilitate discussions regarding the process for ADEM to install air quality monitors.
